General Comments

No fieldwork today. Mechanical piping and dehumidification system installation complete except for minor punchlist items. Escort PB personal, Melinda Thomas, James Zandian, and Michael McNiven, to bridge to inspect the 6", 10", and 12" diversions under the access platform locations at the tower, PP 42, along the EB and WB bridge. Larry Moughler, FWS, was sent an email asking if FWS would be interested in doing any repair work which is proposed under a future contract. Misc MEP paperwork and write diaries.
